Delivering **Quality, Communication, Understanding and Speed of Service** has been the firm's strategy since it started in 1919. As a result, our clients are comfortable recommending us to their family and friends and this has enabled us to build our reputation and grow steadily not only to become one of Surrey's largest law firms but also to expand into London. We believe that taking the time to get to know our clients and understand their needs, is the best way to consistently deliver a value-added, efficient, reliable and cost-effective service.

With offices located throughout Surrey and in London, we are able to offer a comprehensive range of accessible, convenient, rapid and sound legal services to all our private and business clients, covering wills, trust and investment services, conveyancing, personal injury, clinical and professional negligence, dispute resolution, family legal advice, plus specialist advice for employees and employers, business owners and managers and landlords and tenants.
